BRAND GUIDE

VERSION 4 · 2026

Four spheres, one system

The mark is not decoration. Each sphere is one of the four subsystems the Battery Score is built from, and those four colours carry through the portal, the lab comparison and every chart in the product. The mark is the legend.

 Charge How well you handle fuel. Glucose, insulin, HbA1c.	 Output What you can spend. The hormonal panel.	 Reserve Raw material. Substrate, iron, vitamin D.	 Drain What consumes capacity. Inflammatory markers.
---	---	--	--

PRIMARY LOCKUP

 ON CARBON BLACK	 ON ICE WHITE
---	---

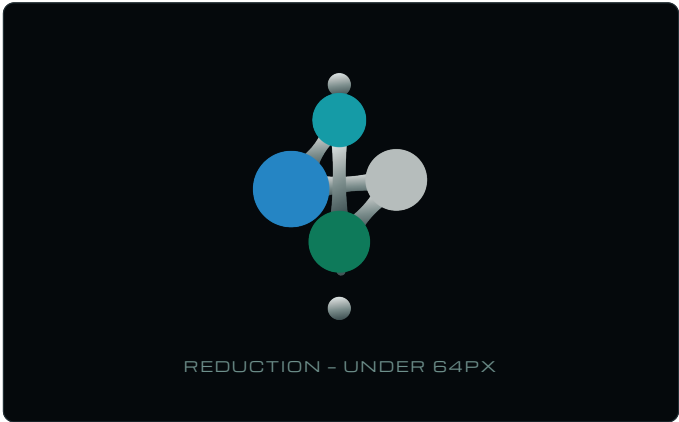

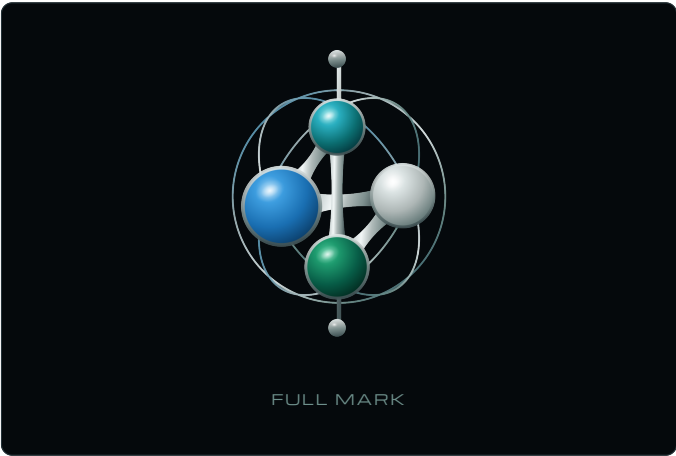

Horizontal and reduced

Site headers, email signatures, letterhead and report footers use the horizontal lockup. Anything below 64 px uses the reduction – the orbitals and spindle disappear at small sizes regardless, so the reduction drops them and flattens the spheres to solids.

HORIZONTAL

MARK ALONE & REDUCTION

Foil, embroidery, engraving, vinyl

Single-colour versions exist so the mark survives processes that cannot reproduce gradient. Use these for apparel, stamps, laser engraving, cut vinyl and any single-ink print. Never approximate a gradient with halftone.

The palette

Four subsystem colours, three neutrals, one accent. The subsystem colours are semantic – they mean the same thing everywhere they appear and are never used decoratively.

SUBSYSTEM

	Battery Blue	Charge. Fuel handling.	#218BBE 33 139 190
	Energy Teal	Output. Hormonal.	#2A AFC0 42 175 192
	Battery Green	Reserve. Substrate.	#157A5C 21 122 92
	Steel	Drain. Inflammation.	#6E908C 110 144 140

GROUND & STRUCTURE

	Carbon Black	Primary ground.	#05090C 5 9 12
	Deep Navy	Raised planes, panels.	#13323F 19 50 63
	Silver	Metal, hairlines.	#B6BDBC 182 189 188
	Ice White	Type on dark, light ground.	#ECF3F4 236 243 244

ACCENT

	Copper	Every negative in the interface – a marker moving the wrong way, a missed log, a warning. Never appears in the mark.	#B4653A 180 101 58
---	--------	--	-----------------------

CMYK values are conversion starting points only. Request a printer proof before any production run.

Michroma and Newsreader

A squared technical face for display, a literary serif for reading. The pairing is deliberate: the instrument and the body it measures.

MICROMA – DISPLAY – SIL OPEN FONT LICENSE

Charge Output

MICROMA – SECTION HEADING

FOUR SYSTEMS, MEASURED TWICE

MICROMA – LABEL – TRACK 0.2EM

D A Y O – D A Y 9 0

NEWSREADER – LEDE

You are a battery, and nobody has ever measured yours.

NEWSREADER – BODY

Tired, foggy, heavier, sleeping badly, no drive. Those get treated as five separate problems, by five different approaches, usually one at a time and usually for years. They are not separate.

RULES

- Michroma ships one weight. Build display weight with a matched stroke on outlines, never a faux-bold.
- Michroma is very wide. Keep headlines short – long ones stack to five lines on a phone.
- Outline all type before sending to a printer or embroiderer.
- Both faces are SIL Open Font License: free for commercial use, embedding and modification.

Rules

CLEAR SPACE & MINIMUM SIZE

Clear space on all sides equals the diameter of the top sphere. Below 64 px, switch to the reduction – never scale the full mark down.

64PX

40PX

24PX

16PX

Do

- Use the four subsystem colours semantically, in the product as well as the mark.
- Place the dark lockup on solid Carbon Black or Deep Navy.
- Use the reduction for favicon, app icon and social avatar.
- Keep copper for negatives only.

Do not

- Re-add glow, bevel, chrome or lightning. The thesis is chemistry, not electricity.
- Stretch, rotate, or recolour the spheres.
- Set the dark lockup on a mid-tone photograph.
- Use copper anywhere in the mark.
- Scale the full mark below 64 px.

Asset index

All artwork is true vector with real gradient definitions. Type is converted to outlines, so no font file needs to travel with the artwork and nothing substitutes on another machine.

FILE	USE
01-lockup-stacked.svg	Primary, dark backgrounds. Hero, cover, shirt front.
03-lockup-stacked-light.svg	Primary, light backgrounds. Print, invoices, reports.
06-lockup-horizontal.svg	Site header, email signature, letterhead.
07-lockup-horizontal-light.svg	Horizontal on light ground.
02-mark.svg	Mark alone. Watermark, stamp, large avatar.
09-mark-small.svg	Reduction. Favicon, app icon, anything under 64 px.
04-lockup-mono-white.svg	One colour, knockout on dark.
05-lockup-mono-black.svg	One colour, black. Foil, engraving, single-ink print.
08-lockup-horizontal-mono-black.svg	One colour horizontal.
png/mark-512 · 192 · 64 · 32 · 16.png	Favicon and app icon exports.
fonts/michroma.woff2	Display face, web.
fonts/newsreader.woff2	Body face, web.
